### **DETAILED ACTION**

1. This Office Action is responsive to communication filed on 02/27/2009.

#### ***Response to Amendment***

2. The proposed amendments to claims will not be entered because they would require further search and/or consideration. For example, claims 2, 14, 21 and 27 now recite "setting up a window designating a predetermined section with reference to the first movement location", claims 2 and 21 now recite "each of the plurality of candidate locations is assigned a corresponding weight, each weight having a value corresponding to one of " and claim 27 now recites " a media storage device configured to store video streams to be provided according to a request of the control device" and "an index storage device configured to store .... the control device, wherein". The previous underlined arrangements were not previously stated in claims 2, 14, 21 and 27, thus making the amended claims more specific and necessitating further search/or consideration. Independent claims 2, 14, 21, and 27 thus would require further search and/or consideration.
